Village Water Supply.
Grant for - 1945-46.

GOVERNMENT OF BOMBAY.
General Department.
Memorandum No.S.92.
Bombay Castle, 16th April 1945.

Letter from the Commissioner, Southern Division, No.L.F.Gen.426, dated 19th October 1944.
Letter from the Superintending Engineer, Northern Circle, No.G.26/10399, dated 29th September 1944.
Endorsement from the Commissioner, Northern Division, No.L.F.32-III, dated 13th October 1944.
Letter from the Superintending Engineer, Deccan Irrigation Circle, No.4945, dated 29th August 1944.
Letter from the Commissioner, Central Division, No.L.B.D.8-30-III, dated 16th November 1944.
Letter from the Commissioner, Northern Division, No.L.F.783-XV, dated 1st December 1944.

MEMORANDUM.- The following amounts should be placed at the disposal of the officers mentioned below for village water supply from the provision of Rs.5,00,000 made in the current year's budget under the head "39-E-Public Health-Special Development Programme-(1)(a)-Grants at the disposal of General Department for village water supply":-

		Rs.	
Commissioner, Northern Division.		1,60,000	(including the amount of Rs.50,800 required by the Superintending Engineer, Northern Circle).
Commissioner, Central Division.	...	1,30,000	(including the amount of Rs.2800 required by Superintending Engineer, Deccan Irrigation Circle).
Commissioner, Southern Division.	...	1,40,000	
		430,000	

3930/3 2
12849.

2. The Commissioners should be requested to distribute the amounts among the districts in each division according to the needs of each district, preference being given to areas which have helped in the war work. In distributing funds among the various districts, the amounts required for expenditure on works in progress and works to be completed before the advent of the monsoon should be allotted first.

3. The Commissioners are requested to report to Government by 10th December 1945, after taking into account the actual expenditure incurred up to 30th November, 1945, if any additional allotments are required by them for the rest of the financial year 1945-46. While submitting such reports the Commissioners are requested to state the amounts spent up to 30th November 1945.

By order of the Governor of Bombay,

E. B. Patell,
Under Secretary to Government.

G.M., No.S.92, G.D., dated 16th April 1945.

Mr. + Mrs. A. Bane copy
19-4-45 Secn. No. 12849

19-4-45 A.C. B.

As a result of my discussion with H.M.'s this morning, the following points require immediate attention:-

(1) Call for all papers dealing with Kilkis Water Supply. Put up a precis of what has been done in the past and what information is available with any proposals. This is required very early for discussion with H.M. P.W.D.

(2) Put up a brief note detailing all Irrigation Projects under construction or proposed in P.W.R. with relevant facts concerning them & the present position. This has been promised by me to H.M. P.W.D. immediately; it is therefore for put up at once.

4/4/46

D. Engr (Irrigation) 4/4/46.

Dy. Secy. (I & R) Will the Under Secy pl. put up a brief note re. Irr. Proj. in P.W.R.? This note also be returned by G.T.B. for taking action on other points. 6/4/46.

Please find enclosed a
brief note explaining
what was done during the
last Meeting for Village
Water Supplies

[signature]
3/6/66.

I.B.-O.N. Public Works Department.

The question of undertaking early measures of improvement of Village Water Supply had engaged the attention of the last ministry for a long time. Eventually the matter was fully considered in all its aspects by the Village Water Supply Committee made up of the then H.M.P.W.D. (the then H.M.F.D.) and the then H.M.P. Health at its meeting held on the 15-9-1939. It was decided to undertake a comprenensive scheme of investigations and surveys for Village Water Supply Schemes - Vide G.R.No.3930/36, dated the 20-10-1939. The idea was to prepare a survey of all the villages in the Province in which there was deficient water supply and to execute the whole scheme by June 1941. With this end in view the Province was divided into the following four zones for surveys of the works relating to the Village Water Supply :-

(1) Gujarat Zone.

(2) Konkan Zone (except Kanara).

(3) Maharashtra Zone.

(4) Kannada Zone.

One P.W.D. Executive Division was created for each of the four Zones for a period of eight months in connection with the investigation and survey work only. The Ex.Engrs. were instructed to start the work of investigation immediately and complete it as early as possible and at the latest by the end of May 1940. These officers were directly under the control of Mr. Sule, Secy. to the V.W.S. Committee and had to submit these schemes to him as they were ready.

2. The Gujarat and the Kannad Zones were opened with effect from the 1-10-39 and the Konkan and the Maharashtra Zones from the 25-10-39 and the 23-11-39 respectively. The Secy. V.W. S.Committee had asked

the .....

the Ex.Engrs. to limit their operations to those villages only as were given in the lists supplied by the Commrs.

The position regarding the work done to end of April 1940 was :-

	Schemes as per the Commrs' lists.	Schemes investigated.	Schemes for which projects are prepared.	Schemes ready for execution. No.	Cost. Rs. in Lakhs.
Gujarat Zone.	566	789	491	409	11.49
Kannada Zone.	1,173	750	600	340	5.10
Konkan Zone.	1,651	553	498	349	5.19
Maharashtra Zone.	1,846	600	500	250	3.
	5,236	2,692	2,089	1,348	24.

The position was reviewed and it was felt that two courses were possible, viz., (1) whether to continue the operations as before till the end of May 1940 or (2) whether to discontinue further field investigations forthwith and to employ the technical staff such as overseers till June 15th for completing the schemes already investigated. If the first alternative was adopted about 500 schemes in addn. would be investigated making a total of roughly 3200 schemes as against 2692 refd. to in Col. 3 above. If the second alternative was adopted it was believed that it would be possible to complete all operations pertaining to 2089 schemes already investigated and for which projects were prepared thus making available by the middle of June 1940 projects costing about Rs.37.5 lakhs ready for execution, thus giving us schemes sufficient to last us for over five years. As, however, there was no possibility of Govt. raising a loan or of Govt. providing annually in the budget a sum of about 8.5 lakhs for this scheme it was considered that it was best to close down the field staff, to finish up the plans, etc., for 2089 schemes and from the next season to get on with putting as many of these schemes into effect as possible and that until Govt. saw the utility of a reasonable proportion of these schemes proved no further investigation should be made. .....

made. In view of the above considerations the following orders were issued - vide G.R.No.3930/36, dated the 11-5-1940.

"All further field investigations should be stopped immediately and the staff should be employed solel for completion of the projects already investigated.

(b) All the completed projects should then be arranged in order of priority according to urgency as disclosed during the field investigations and a priority list should be prepared according to the Rev. ~~Dev~~ Deshmukh showing the estimated cost of each scheme and submitted to Govt. for orders.

(c) The work referred to in (a) and (b) above should be completed by the 15-6-1940 at the latest. The V.W. Supply Divns. for the Konkan, Maharashtra and Kannada Zones should be closed with effect from the date mentioned above, while the Divn. for Gujarat Zone should be closed immediately.

3. In G.R. No.3930/36, dated the 24-3-41, sanction was accorded to the creation of the following Sub-Dns. on a temporary basis with effect from the 1-4-1941 to 28-2-1942 for the V.W.S.Schemes to be executed through the P.W.D. Agency :-

Name of Sub-Dn.	Head Quarters.	Names of Talukas and Petas in which the Village Water Supply Schemes are to be executed.
1. Kod Village W.S. Sub-Dn.	Kod.	Kod. Ranebennur.
2. Bagewadi -do-	Bagewadi.	Bagewadi. Muddebihal Sindgi. Bijapur.
3. Wada -do-	Wada.	Shahapur, Wada, Mokhada.
4. Dohad. -do-	Dohad.	Jhalod, Dohad.
5. Sholapur -do-	Sholapur	Sholapur, Barsi Madha.

The above mentioned Sub-Dns. were continued for a further period of one year ending the 28-2-1943 - vide G.R. No.3930/36, dated the 28-5-1942.

4. As the Secy., V.W.S. Committee reported in h:

lette:

letter dated the 2-7-1941 that in the Ratnagiri and Satara Districts the investigation of village W.S.Schemes was not completed when further work was stopped by Govt. Reso. No.3930/36, dated the 11-5-1940. Two Sub-divisions - one in each of the two districts - were created with effect from the 1-10-1941 to the 28-2-1942 - vide G.R.3930/36, dated the 24-9-1941. The Sub-Dn. with in the Ratnagiri Dn. was continued upto the 28-2-1943. That in the Satara Dn. was continued upto the 31-3-1943 - vide G.R.No.3930/36. dated the 20-5-1942 and G.R.No.3930/36, dated the 1-10-1942, G.R.No.3930/36, dated the 5-1-1943.

5. Attention is invited to Mr.Sule's Reports at pp. 1-32 of File No.3930/36-XII which details the position of the V.Water Supply Scheme as it existed on 15-3-1943.

6. Regarding the progress to end of 30-9-1945 in respect of the V.W.S.Works to be carried out by the P.W.D. a consolidated statement giving the requisite information is put up.

7. In this connection it may be observed that the subject "Village Water Supply" pertains to the G.D. That Deptt. being the administrative Deptt. concerned considers the questions of policy etc. in respect of the Village Water Supply Works and issues orders in connection therewith. If approved, that Deptt. may be requested to prepare a note on the subject of the V.W.Supply Scheme and submit it to the H.M.P.W.D.

Rnl 5-11-

Thro' P.W.R., E.B.(I) and D.E.(I).

P.W.R.B.

8. In the following concentrated talukas the R.C.D. has made provisions. shown against them, for construction of V.W.Supply Works (wells etc.) in the first five years. These works are under the administrative control of the G.D. They are to be carried out by the P.W.D. or by the District Local Boards etc. according to the availability of the staff in P.W.D. or otherwise :-

Taluka .....

Taluka and District.	Amount to be spent in the first 5 years.
1. Khed (Dist. Ratnagiri).	75,000
2. Satara (Dist. Satara).	50,000
3. Sangola. (Dist. Sholapur).	75,000
4. Athni (Dist. Belgaum).	75,000
5. Bulsar (Dist. Surat.)	75,000
6. Pardi. (Dist. Surat.)	40,000

5/4/46 5.4.46

W.B.(I)

PSM.5/4/46.
S.

9. With ref. to paras. 3 and 4 of the O.N. it may be stated that the present position of V.W.S. Sub-dns. is as mentioned below:-

Recently Govt. proposed to close down temporarily the marginally noted four V.W.S. Sub-dns. which were in existence in Jany. 1946 and to make the staff available for Scarcity Works. After due consideration it was decided to continue two Sub-dns. viz. the V.W.S. Sub-dn. Satara and the Sholapur V.W.S. Sub-dn., while the Godhra and Khed V.W.S. Sub-dns. were closed down.

1. Godhra V.W.S. Sub-dn. (Kra.P M.Dn.)	:
2. Satara V.W.S. Sub-dn. (Satara Dn.)	:
3. Sholapur V.W.S. Sub-dn. (Sholapur Dn.)	:
4. Khed V.W.S. Sub-dn. (Ratnagiri Dn.)	:

BKR
5/4

5-4-46

The cost of the sanctioned projects is Rs 19,19,042. The cost of works executed to end of 30.9.45 is Rs 10,19,736 Execution of works under the scheme first commenced in 1941-42. The comparatively slow progress is due to the following reasons.

(1) It was difficult to find suitable agencies and labour to take up the small works especially in situations remote from main communications. The petty contractors and labour were very much in demand on more attractive works near district towns

(2) Labour was also diverted to agricultural operations where they were better assured of food pro

them in other employments.

(3) Sites of some of the wells had to be changed and the respective agencies were unwilling to proceed with the work at the new sites.

(4) Great increase in rates of wages and cost of materials compared to rates in the sanctioned estimates.

GH
8.IV.46

As requested I submit herewith all the papers in this Department concerning "Village Water Supply" together with a brief note showing what has been done in the past and to date.

2. The subject is one which pertains to the General Department, which directs and controls the policy to be adopted; this Department being concerned with the execution of the works.

3. Attention is respectfully invited to paragraph 8 of the note in which is shown the proposals in this connection during the first five years of the Post War Reconstruction programme.

4. The main difficulty in the past has been the shortage of qualified men to supervise these very scattered works and of labour to execute them; a shortage which during the War Years brought almost all works to a close, and which even now has not been overcome.

5. In the past the control of such works came directly under Mr. R.G.Sule C.I.E., then S.E. D.I.C., who was appointed Secretary of the Village Water Supply Committee; if it is now proposed to take up these works again very vigourously, as I understood from the discussions on the subject, it would probably be advisable to put the control in the hands of the C.E. Post War Reconstruction (Mr. C.G.Kale C.I.E.) as it will presumably form part of the Post War programme, but this can be settled once the H.M. has had time to study the case.

Copy of letter No. G-55, dated the 18th September 1946, from the Executive Engineer, Bijapur Division, regarding V.W.S.well works: Bijapur District: Establishment for the

" Reference: Chief Engineer Post War Reconstruction Poona's letter No.565/46-I, dated 3/4-9-1946.

2. For the present the following temporary establishment will be required immediately to take up the investigation and preparation of plans and estimates of V.W.S. well works in this District for short period up to end of December 1946 in the first instance:-

6 Overseers.	...	5 for investigation & preparing Projects for 5 talukas at 1 Overseer for each Taluka in the first instance and 1 for supervision of wells, now to be taken in hand.
1. Overseer or Sub-Overseer.	...	for this office for scrutiny of the estimates.
1. Tracer computor	...	to help the Assistant Draftsman in taking out tracings etc.
7. Kalashis	...	6 for Overseers and 1 for Divisional office for taking out blue prints
1. Typist.	...	to type the estimates, correspondence etc. in respect of the V.W.S. wells.

3. The present Land acquisition clerk dealing with the old pending Land Acquisition cases will hereafter be entrusted solely with the disposal of the Land Acquisition cases of new well works to be taken up, hereafter keeping aside the work of disposal of the old pending cases and sorting out of land acquisition cases. The present overseers and sub-overseers engaged on scarcity works will be put on construction works of V.W.S. wells as and when available from scarcity centres.

4. The actual additional establishment required for this office and sub-Divisional offices for full programme of the V.W.S. well works will be applied for in due course.

5. As the works are to be taken up immediately the above establishment may please be sanctioned immediately."

3930/36
39323

E.B.(II). Public Works Department.

In the circumstances explained, the S.E.,S.C., reque: that the following estabt.may be sanctioned for the Bija pur Divn.in connection ~~kk~~ with Village Water Supply well works:-

		Rs.
✓6 Overseers.	...	70-5-110-10-250 ✓
1 Overseer or Sub-overseer		70-5-110-10-250 or 50-5/2-75-3-90-5-120 ✓
1 Tracer.		25-2-55-3-70.
7 Khalasis.		Sanctioned ~~scales~~ rates
1 Typist.		

2. The [illegible] has proposed an overseer or a sub-overseer for his office for scrutiny of the estimates. It seems that an overseer will be necessary for the scrutiny of the estimates, as ~~it~~ this work is of important nature. A post of an overseer instead of a Sub-overseer may perhaps be sanctioned.

3. No scale of pay has been proposed for the typist. Presumably the S.E.wants that the post of the typist ~~to~~ be sanctioned in the scale of Rs.25-5/2-65, which is the usual pay-scale for such posts.

4. In the circumstances, the above posts may be sanctioned upto the 28-2-47 or till the opening of Village Water Supply Sub-divn., whichever is earlier. The draft put up may issue, if approved, after U.O.R.to the F.D.

E. B. (II).

With refce. to the note of the U. Secy. F.D., it is stated that the construction of Village Water Supply Wells in Bijapur District is carried out both by the P.W.D. & the D.L.B. The P.W.D. has to carry out works in 6 Talukas and the D.L.B. in 3 Talukas. In the case of Dharwar Dist. the D.L.B. is in charge of 8 Talukas, whereas this Deptt. has to construct wells only in 3 Talukas, viz., Hargal, Shiggon & Kalghatgi. Attention is invited to portion marked "A" of endt. No. 565/46-I, dated the 3rd/4th Sept. 1946, by the C.E., P.W.

— from —

from which it will be seen that the necessity for addl. estabt. was already foreseen.

2. It seems that no addl. estabt. has yet been sanctd. for the Dharwar Dn in con. with Village Water Supply Well Works.

3. In the circumstances the F.D. may be requested to agree to the proposals made by this Deptt. at p. 5 ante.

LB 12/10/46

14

16/10

4. It has been separately decided that the expdr. in connection with the V.W.S. works should be debited to the head "38-PH-V.W.S.-P.W.R.&D.P." The cost involved in the proposal in these papers is debitable to that head. As source to meet the expdr. will be pointed out in due course. The following may be substituted for para 3 of the draft on page 6 ante —

FJL

"3. The cost involved on account of the above orders should be debited to the head "38 PH-V.W.S.-P.W.R.&D.P." The exact amount required should fpl. be applied for early in Feby 1947 whereupon the source to meet the expdr. will be pointed out."

18/10

FINANCE DEPARTMENT
18/10/46

P.W.D. 3930/36)

Finance Department. P.W.R.Bn.

Submitted with reference to Under Secy.'s query dated 10-10-46.

It will be seen from the foregoing P.W.D. note dated 16-10-46 ante that construction of Village Water Supply Wells in Bijapur District is carried out by the P.W.D. and the D.L.B., P.W.D. has to carry out works in 6 Talukas and the D.L.Bs. in 3 talukas. On other papers we had requested P.W.D to issue general orders to the C.E., P.W.R. that 10% overhead charges to cover actual expdre. incurred should be paid to D.L.Bs. for constructions of V.W. Supply Scheme carried throug their agency. The orders to be issued by the P.W.D. will presumably cover the expenditure, that may be incurred on the works, carried through the agency of the D.L.Bs. in the 3 talukas in Bijapur District. The staff detailed at page 6 ante is therefore intended for carrying out the construction of Village Water Supply Wells in the 6 talukas in Bijapur District through the agency of the P.W.D. F.D. may therefore have no objection to sanction the tempy.estabt. detailed at 'A' on page 6 ante for a period upto 28-2-47 or till the opening of Village Supply Divn.whichever is earlier.

3. As regards the 2-3 query made by the U.S., the P.W.D states that no addl estabt has yet been sanctioned for the Dharwar Dn. The Dharwar Dist. P.W.D has to construct wells only in 3 Talukas. Q's against the 3 talukas in charge of the D.L.B. Dharwar

T.B.J. 19/10/46.

4. A lump sum provision of Rs. 9,76,300 has been made in the current year's b[illegible]

(U.S.)

Village water supply under the head "39-P.H.-Special Development Programme" In addition to this, a provision of Rs. 5,00,000 is also made for grants to municipalities for new water supply and other schemes under the head "39-P.H.-Spl. Dev. Prog."

As the work in question in the present case is taken up as a Post War measure, this Dept. may agree to the expenditure being debited to the head "39-P.H.- ~~Village Schemes~~ Post war Recnst. + Dev. Prog - Village water supply" as suggested by the P.W.D in para 4 of its note of 17-10-46

29/10/46

Letter No.322/46-W, dated the 28th August 1946, from the Chief Engineer, Post War Reconstruction, Poona, to the Executive Engineers. (Regarding V.W.S. - preparation of plans and estimates for -)

"On the closure of the four Village Water Supply Zonal Divisions, all the rough plans and estimates for village water supply works prepared by the Zonal Divisions together with office records, village maps, registers etc. were sent to the Executive Engineers of the respective Divisions for record, while files containing general correspondence, accounts etc. were handed over -

To	By
x x x x	x
3) The Executive Engineer, Belgaum Division	(3) The Executive Engineer, Kannad Zone.

2. All plans and estimates for village water supply works already prepared but yet to be approved or those already approved but remaining inoperative due to non-execution of works, will have to be reviewed and revised according to the present day circumstances. The Executive Engineers are, therefore, requested to see that the estimates for very urgent or urgent works as addjudged by the Collector, who should be consulted at once, are all reviewed before the 15th November 1946 and that the revised estimates are submitted to the competent authority one by one in the order of priority for according administrative approval and technical sanction, sending at the same time copies of the same to the Chief Engineer, Post War Reconstruction, for information.

3. In cases in which plans and estimates cannot be prepared for want of data and without survey, survey estimates by Taluka Sub-heads should be prepared at once and got sanctioned by the competent authority, detailed plans and estimates being prepared subsequently to allotment of funds which should be asked for from the Chief Engineer, Post War Reconstruction.

4. As soon as the weather clears up and construction of wells can be taken in hand, vide separate detailed instructions issued, the Executive Engineers should arrange for the same and begin the work under intimation to the Chief Engineer, Post War Reconstruction, Superintending Engineer and Accountant General and asking for allotment ~~xxx~~ of funds simultaneously for the particular work or works to be taken in hand, Allotment required for the period ending 31st March 1947 should be asked for by 15th January 1947.

5. There is a printed form No.Spl. P.W.D.No.132-e "Data for surveyors of village water supply work", approved in Government Resolution, P.W.D. No.3876/36-M dated the 4th November 1939. This form should invariably be attached as a face sheet to village water supply estimates. They should be obtained and supplied to District Local Boards also for adoption by them for the schemes for village water supply works which are already begun by them. They should be made aware of these orders."

Office of the Executive Engineer,
Kanara Division,
Kanawar, 28th September 194

To

The Superintending Engineer,
Southern Circle. Belgaum.

Subject:- Village Water Supply.
Preparation of plans and estimate for.

I am enclosing herewith a copy of Chief Engineer, R. Poona's No. 322/46-W of 29-8-46 for favour of perusal.

2. Due to the present rise in prices almost all the estimates prepared by the Village Water Supply Officer will have to be reviewed and recast which will involve a great amount of work. From the statements received from the Mamlatdars in response to the request made by this office, it is seen that.

124 Nos. of wells for 1st year
100 Nos. of wells for 2nd year
88 Nos. of wells for 3rd year.

(presuming the full programme to last for 3 years,) will have to be taken up in this division. Some of the statements supplied by the Mamlatdars do not include all the wells and a back reference is being made to them. The actual Nos. of wells therefore, to e taken up will be higher tha those given above. The total No. of wells to be dealt with by this division will be about 400. I may here menti that this division has the largest number of wells to be dealt with in the Southern Circle.

3. In view of the urgency of the work, type plans of wells will be prepared. Calling for tenders and starting the works the actual working estimates being prepared, later.

4. Even by adopting the procedure, mentioned in para 3 above, it is feared that the problem cannot be coped with by the normal establishment of this division, which is already inadequate. It is, therefore, requested that one surveyor or overseer may be specially posted to this Division for this work immediately, from outside, for recasting the estimates. Permission to engage the follow indoor staff may also kindly be granted immediately for six months in the first instance.

1 Tracer computer.
1 Clerk-typist.
1 Khalasi for taking out blue prints. } On existing pay scales.

5. Survey estimate for collecting Data, making surveys etc. and the above mentioned indoor establishment for office work is being prepared and submitted to you for sanction as early as possible.

6. If according to para 4 of Chief Engineer's letter u reference, this division is to undertake the construction

for a period of 6 months in the first instance, and communicated by telegram directly to the Executive Engineer Kanara Division to enable him to select personnel etc. for recasting and fair coping the plans and estimates.

4/10/46

Superintending Engineer, S.C.

Through.....

3°30/36/41334.

E.B. (II). P.W. Deptt.

For the reasons given, the S.E., S.C., requests that the following estabt may be sanctd for Village Water Supply Well Works in the Kanara District for a period of six months:-

Estabt.	Pay-scale Rs.
1 Overseer	70-5-110-10-
1 Tracer	25-2-55-3-70
1 Typist	25-5/2-65
1 Khalasi	Sanctd. rate

2. It is not known what number of talukas in the Kanara District will be entrusted to the P.W.D. & the D.L.B. respectively. The C.E., P.W.R., has not yet issued detailed orders in the case of the Kanara District as has been done in the cases of the Dharwar & the Bijapur Districts. Please see in this con. O.M. dated 12-10-45 in file No 3930/36/41084. From the Ex. Engrs letter, it, however, seems that the estabt asked for will be quite essential in view of the fact that about 400 wells will be constructed by that Dn.

3. In the circumstances, it is for consideration whether the above estabt may be sanctd upto the 28-2-47 as the U.O.R. to the F.D. If so, the draft put up may issue, if approved, after submission to the H.M., P.W.R.

E.B. 12/10/46. 14/10/46.

4. It has been separately decided that the expdr in connection with D.W.S. works should be debited to the head "39 PH-D.W.S.-P.W.R. of D.P." The cost involved in the above proposal is thus debitable to this head. Source to which the expdr. will be finally cut out in due course.

No. 11571 of 1946.
Executive Engineer's Office.
Surat, 3 December 1946.

To

The Chief Engineer,
Public Works Department,
Poona.

Subject:- Construction of village water supply works in the Surat District-additional staff required for the ---

Reference:- Para 1(i) of your letter No. 578/46-I dated 21-9-1946.

This Department has been allotted the construction of works in the Chorashi and Olpad Talukas. There will be about 54 works in the Chorashi Taluka and 41 in the Olpad. Both these Talukas lie within the jurisdiction of the sub-divisional officer, Surat City Sub-division. The talukas are situated on the extreme north of the Surat District, while the other two existing Sub-Divisions are so situated that it is not possible to distribute the works among them- Bulsar, on the South in the Surat District and Broach, entirely separated and situated in the Broach District. The works will therefore require to be entrusted to the Sub-Divisional officer, Surat City, with the following staff exclusively for the village water supply works in the two Talukas:-

	Monthly expenditure.
(1) One Overseer for each taluka i.e.two overseers for two talukas scale at Rs.150/-each..	Rs 300/-
(2) 2 Maistries(or suboverseer's class passed karkuns)or Karku for each taluka i.e.4 for two talukas at Rs50/- each.	Rs 200/-
(3) 2 clerks(one for the sub-div ivisional office and one for the Divisional office at Rs. 50/- each.	Rs 100/-
(4) Two sectional peons for overseers at Rs13/-each.	Rs 26/-
(5) Dearness Allowance	Rs 224/-
(6) Increase in pay.	Rs 90/-
Total	Rs 940/-
say	Rs 1000/-

Incidentally it may be mentioned here that due to the opening of the Tapti River Sub-Division and its being accommodated in the City Sub-Division and 3 rooms being occupied by the Project Sub-Division, Surat, there would be no accommodation in the P.W.D. buildings to accommodate this additional staff without some additions and alterations which may cost Rs. 5000/- or so. If not, the present Project Sub-divisional officer housed in the building may have to be asked to vacate. The total cost involved will be Rs. 1,000/- per month. i.e. Rs. 12,000/- per year. I would therefore request that the additional staff as above may kindly be sanctioned.

Sd/ P.Battiwala
Executive Engineer,
Surat and Broach Division.

Through:-

The Superintending Engineer, Northern Circle, Bombay with compliments for favour of transmission with d recommendation.

P.T.O

No. S.B.30/10300
Public Works Department,
Bombay, 9th December 1946.

Passed on with compliments to the Chief Engineer, P.W.D. Poona.

2. The Superintending Engineer agrees with the proposal made by the Executive Engineer, Surat and Broach Division for the additional staff required by him for carrying out the Village Water Supply works in Chorashi and Olpad Talukas in the Surat District, and recommends it for favour of further action

Sd/ Gurjar.

Superintending Engineer, N.C.

Copy forwarded, with compliments to the Executive Engineer, Surat and Broach Division, for information:
2. The question of additional office accommodation for the proposed additional staff required for the Village Water Supply works should be taken up later on.

E.B.(II). Public Works Department.

The construction of village water supply works in the Surat Dist. has been allotted to the Northern Circle. There will be about 54 works in the Chorashi Taluka and 41 in the Olpad Taluka. These works will be carried out by the Surat City Sub-divn. The S.E.,N.C., has, therefore, proposed the following staff for carrying out the works:-

	Monthly expenditure. Rs.
(1) One overseer for each taluka, i.e. 2 overseers at Rs.150 p.m. each.	300
(2) 2 Maistries or karkuns for each Taluka, i.e. 4 at Rs.50 p.m.each.	200
(3) 2 clerks -one for Divn.and one for Sub-divn. at Rs.50 p.m.each. ...	100
(4) Two Sectional peons at Rs.13 p.m. each.	26
(5) Dearness allowance. ...	224
(6) Increase in pay. ...	90
Total. ...	940

2. The pay-scales of overseers and clerks are Rs.70 5-110-10-250 and Rs.25-5/2-65 (lower scale), respectivel The local officers have, however, been authorised to grant upto Rs.200 p.m. to graduate overseers and Rs.50 p.m. to clerks. The pay-scales proposed by the S.E.,N.C for these posts are, therefore, in order. The pay-scale of maistries is Rs.30-2-50-5/2-70 and that of karkuns is Rs.25-5/2-60 (Divnl). ~~Rs.25-5/3-60 (Sub-divnl.)~~ ~~Rs.20-2/2-40 (Sectional)~~. The Maistries may cannot be given higher starting pays. The higher pay proposed by the S.E.for maistries ~~and karkuns are~~ is, therefore, not in order. The posts to be sanctioned for the village water supply works in the Surat Dist. may be in the sanctioned scales. The S.E.,N.C., will give higher starting pays wherever admissible.

3. Out of the posts mentioned at "A" overleaf, the Chief Engr.,P.W.D., has not recommended the post of the Divnl.clerk. In the circumstances, it is for consideration whether the following posts may be sanctioned for village water supply works in the Surat Dist. after U.O.P.to the F.D.:-

Establishment.		Pay-scale.
2 Overseers.	...	Rs.70-5-110-10-250..
4 maistries or karkuns.		Rs.30-2-50-5/2-70 or Rs.25-5/3-60 for Sub-divnl.karkun. Rs.20-2/2-40 for Sectional karkun.
1 Sub-divnl.clerk..	...	Rs.25-5/2-65.
2 Sectional peons.	...	Sanctioned rates.

4. The S.E.,N.C., or the Chief Engr.,P.W.D., has not stated for how long the above tempy.posts will be required. It, however, seems that these works will not be completed before the 29th Feb.1948. These posts may, therefore, be sanctioned upto the 29-2-48 in the first instance.

MKP.
8/1/47.

Thro' B.B.

BB. 9/1/47

5. The cost involved during the current year is debitable to the '39-P.H.-E-Spl.Dev.Programme-E-1-6 V.W.S.' and the S.E., N.C. may be asked to meet it from the grants placed at his disposal for the current year. The cost involved during 1947-48 is debitable '39-P.H.-Spl.Dev.Prog.-V.W.S.' and it will be met by reappropriation of funds or by supplementary grant.

10-1-47

The posts proposed in para 3 are necessary and may therefore be sanctioned.

Subject:-Temporary establishment for village Water Supply Works in the Surat District

Reference: Correspondence ending with your letter No.S.B. 30/672, dated the 23rd January 1947.

2. Government is pleased to sanction the temporary establishment mentioned below upto the 29th February 1948, in the first instance, for the Surat City Sub-division of the Surat and Broach Division for carrying out the Village Water Supply Works in the Chorashi and Olpad Talukas in the Surat District:-

Establishment.	Pay-scale. Rs.
2 Overseers. ...	70-5-110-10-250.
4 Maistries or Karkuns.	30-2-50-5/2-70 or 25-5/3-60 for Sub-divisional Karkuns. 20-2/2-40 for Sectional Karkuns.
1 Sub-divisional clerk.	25-5/2-65.
2 Sectional peons. ...	Sanctioned rates of pay.

3. The above staff is also eligible for other allowances as admissible under the rules.

4. The cost involved should be debited to the head "39-Public Health-Post War Reconstruction and Development Programme-Village Water Supply".

By order of the Governor of Bombay,

No.3000/36-E(I). Letter. Public Works Department,
Bombay Castle, 15th November 1946.

To

The Chief Engineer,
Public Works Department, Poona.

Subject:- Opening of a new sub-division, for water supply schemes in the Bhal tract, in Ahmedabad District.

Reference: Your letter No.605/46-E, dated 24th September 1946.

2. Sanction is accorded to your proposal to open a Village Water Supply Sub-division at Dholka, in the Ahmedabad District, under the Public Health Engineer to Government, in connection with the water supply schemes in Bhal tract, for a period of one year, in the first instance, from the date of opening of the Sub-division.

3. The following temporary establishment is sanctioned for the temporary Sub-division:-

		Scale of pay.
1 Deputy Engineer.	...	Bombay Service of Engineers, Class II
2 Overseers.	...	Subordinate Service of Engineers.
1 Assistant Draftsman	...	Rs.50-5/2-90.
1 Tracer	...	Rs.25-2-35-3-70.
4 Clerks.	...	Rs.25-5/2-65.
3 Peons.	...	As admissible under the rules.

4. The cost involved on account of the above orders is debitable to "39-Public Health - Village Water Supply Scheme - Post War Reconstruction and Development Programme".

5. Please give detailed justification, with facts and figures, as to why the Public Health Engineer to Government wants the following staff in the office of the Executive Engineer, Public Health Works Division:-

1 Overseer.	...	Subordinate Service of Engineers' scale.
1 Assistant Draftsman	...	Rs.50-5/2-90.
1 Clerk.	...	Rs.25-5/2-65.

Please also justify your demand for the following amounts:-

Office contingencies.	...	Rs. 2,000
Office furniture.	...	Rs. 1,500

6. As regards survey work and Tools and Plant, the necessary estimates should be submitted to Government, on receipt of which the question of allotment of funds will be considered.

By order of the Governor of Bombay,

15/11/46

for Secretary to the Government of Bombay,
Public Works Department.

Letter.

To

The Secretary to Government,
Public Works Department, Bombay.

No.P.H.W.33/ 143 of 1947. Poona, January 6th 1947.

Subject:- Additional establishment required for the office of the Executive Engineer, Public Health Works Division, Poona.

...

Reference para.5 of Government letter, P.W.D., No.3930/36-E(I), dated the 15th November 1946.

2. The establishment sanctioned for the office of the Executive Engineer, Public Health Works Division as per G. R., P.W.D., No.7191/36, dated the 5th April 1945, was based on the activities and work of the Divisional office as anticipated before 1945, when only four Sub-Divisions were attached to the Division. Since then a great deal of additional work has been entrusted to this Division, viz:-

(1) Accounts of the Boring Works Sub-Division,

(2) Nadiad Water Supply and Drainage Sub-Division,

~~(3)~~ Village Water Supply Sub-Divn., Poona District,

(4) Village Water Supply Sub-Divn., Ahmedabad District,

With the sanction of additional Sub-Divisions, the clerical work, both as regards accounts and correspondence, has increased and requires to be supplemented. Of the two Village Water Supply Sub-Divisions, one has just been opened and the other is yet to be started. The Village Water Supply Sub-Divisions have to deal with questions of water supply to several villages in each district. Plans and estimates of individual works have to be prepared though the amount may be small, ~~Each~~ such plans and estimates submitted by the Sub-Divisional Officers have to be checked in the Divisional office and instructions issued to the Sub-Divisional Officers. The present strength of the Division office is only two Overseers, two Draftsman and two Assistant Draftsmen who are fully occupied. As such additional technical staff is considered necessary. It may please be noted that no additional staff was demanded or sanctioned with the additions of the first two Sub-Divisions. One Overseer, one Asstt: Draftsman and one Clerk have since been sanctioned for

Divisional

Divisional office in Government letter, P.W.D., No.8168/36-E(I), dated the 11th November 1946 with the addition of Sub-Division at (3) above and that now proposed for the addition of the fourth Sub-Division, viz. One Overseer, one Assistant Draftsman and one Clerk may be sanctioned early.

An estimate for office furniture is being submitted to Government separately. The allotment required under Contingencies has been restricted to Rs.500/- each for the remaining period of the year excluding office furniture and will still further be reduced if possible.

Diary No. 1060

E. B. (I) 7-1-47

E.B.(II).

The P.H.E. has approached Govt. with regard to the following estabt. regd. for the office of the Ex.Engr., Public Health Works Division:-

(a) One Overseer

(b) One Assistant Draftsman

(c) One Clerk

2. The P.H.E. states that the estabt. sanctioned in G.R.No.7191/36, dated the 5th April 1945, for the office of the Ex.Engr., Public Health Works Division, was based on the activities and work of the Dnl. office as anticipated before 1945. when only the four sub-dns. mentioned below were attached to it:-

(a) Sanitary Project Sub-Divisio

(b) Post War Sanitary Sub-Divisi

(c) Poona Drainage Sub-Division

(d) Poona Military Drainage Sub-Division.

He adds that due to the additional work mentioned at "A", which is entrusted to the Public Health Works Dn., the work in the Dnl.office has increased considerably. No additional staff has been sanctioned for the Dnl. office with the addition of the following 2 Sub-division

(a) Accounts of the Boring Works Sub-Division

(b) Nadiad Water Supply and Drainage Sub-Division.

One overseer, one Asstt.Draftsman and one clerk have, however, been sanctioned for the Dnl.office with the addition of the Village Water Supply Sub-Division, Poona District, vide G.L.No.8168/36-E(I), dated the 11th November 1946.

3. In the circumstances, the P.H.E. to Govt. requests that posts mentioned at "B" above may be sanctioned for the Dnl.office, in view of the increase in work due to sanctioning of the Village Water Supply Sub-Division, Ahmedabad District. It is for consideration whether his request may be granted. If so, these posts may perhaps be sanctioned

upto the 28th February 1948, in the first instance. The posts, if sanctioned, will be in the sanctioned scales, i.e. overseer in the S.S.E.Scale, Asstt.Draftsman in the scale of Rs.50-5/2-60 or Rs.70-5-110 for men possessing Engrg. qualifications and clerk in the grade of Rs.35-5/2-65.

4. The papers will be rc/d. u.o. dt. The F.D before issue of orders.

5/3/47

5. Portion "A" of the P.H.E's letter is not quite clear. He will be asked to clarify the position hereafter.

It will be seen in establishment is required.

Village Water Supply.

Desilting of Village tanks.

Government of Bombay;
Health and Local Government Department.
Resolution No.S.92(18).
Bombay Castle, 5th August 1947.

Letter from the Collector of Kolaba No.W.S.779, dated the 9th June 1947 and No.VW.S.892 dated the 3rd July 1947.

RESOLUTION:- Government is pleased to direct that the expenditure incurred on desilting of villages tanks should be debited to "39-Public Health-F-Post-War-Reconstruction and Development Programme 1Works Village water supply"and should be met from the amount allotted by the Commissioner district wise. If the allotment f a particular district is insufficient to meet all the expense incurred on village water supply including desilting of anks, the Commissioner should meet the deficit, if any, from svings in the allotments of the other districts in his Divisin.If this is not possible, the Commissioners should sumit to Government proposals for a supplementary provision
